

JOHN DOE

Software Developer

johndoe@example.com | 123-456-7890 | New York, USA | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Highly motivated software developer with expertise in FoundItApplyTask. Proficient in building scalable backend solutions and collaborating with frontend teams.

EDUCATION

Bachelor of Science in Computer Science

New York University, 2015-2019

TECHNICAL SKILLS

Programming Languages: FoundItApplyTask

EXPERIENCE

Software Developer | ABC Corporation | 2020-2022

- Developed backend solutions using Java and related technologies.
- Worked with MySQL databases for data storage and management.
- Built and integrated APIs with frontend applications.
- Collaborated with frontend teams using HTML, CSS, JavaScript, and React.js integrations.
- Performed troubleshooting and debugging of backend applications.
- Contributed to software development lifecycle activities including testing and deployment.
- Participated in code reviews and maintained development documentation.

Junior Software Developer | DEF Company | 2019-2020

- Supported projects involving AI, IoT, and digital transformation technologies.
- Worked with cross-functional teams to deliver high-quality software products.

PROJECTS

E-commerce Website

Tech Stack: Java, MySQL, React.js

- Designed and developed a scalable e-commerce website using Java and MySQL.
- Integrated React.js for a seamless user experience.
- Implemented payment gateway integration and security measures.

Machine Learning Model

Tech Stack: Java, MySQL, TensorFlow

- Developed a machine learning model using Java and TensorFlow.
- Trained the model on a large dataset and achieved high accuracy.
- Deployed the model on a cloud platform for real-time predictions.
